

Intertek Industry Services (IS) and its subsidiary units comprise Technical Inspection Services (TIS), Technical Staffing Services (TSS), Asset Integrity Management (AIM), and Consulting & Training (C&T) divisions. Within these units Intertek Industry Services provide for a comprehensive service selection of inspection, auditing, expediting, procurement, provision of personnel, consulting and training to international and sector standards for clients of international standing throughout the world.

Intertek Industry Services is aware of and is committed to minimizing, the impact that its business operations have on the environment. Intertek will endeavor do this through the effective application and support of all established policies and procedures.

Intertek’s Commitments:

- Intertek will aim to avoid harm to the environment where impacted by its business related activities and services
- Intertek will ensure that all its entities operate in compliance with local environmental laws, regulations and standards
- Intertek will work to reduce harmful emissions and minimize environmental pollution

In order to meet these commitments, Intertek will, as far as it is reasonably practical to do so:

- Provide the necessary information, guidance and resources to ensure that employees understand their personal responsibility to act in an environmentally conscious manner
- Seek to reduce waste, carbon production and the use of resources (energy, water, paper) through effective waste management and recycling systems
- Provide competent personnel who are sufficiently qualified and consider client requirements when employing sub-contractors to ensure that they meet the specified criteria
- Develop a high level of environmental awareness amongst employees and ensure that environmentally friendly practices are adopted at all sites
- Ensure that environmental incidents are recorded, reported and investigated and that where necessary, preventative action is taken
- Effectively communicate this policy to all employees and ensure that it is referenced to during induction and training processes
- Openly monitor and continuously improve our environmental performance
- Review this policy on a regular basis and audit the implementation of the policy ensuring that it is being executed at a national level by local management

Responsibilities

Line management is responsible for environmental activities along with individual employees. All incidents will be recorded and reported to the designated Country Environmental Representative who will report through to Intertek Group as well as to the respective Country Line Management.

This policy statement has the complete support of the Management team, is in full compliance to the Intertek Group Plc. Environmental policy and will be subjected to annual review and revision when necessary.
